Southeast Service Centers

Mar Cor Purification High Purity Water Products

Corporate Profile

Mar Cor Purification (MCP) is owned by Cantel Medical Corporation, a New York Stock Exchange listed company (CMN). MCP is a leading provider of complete water treatment systems and services for the Life Science market. For over 40 years and over 1000 installations, we have been providing high purity water solutions to these industry leading sectors. The Nashville Service Center is one of 30 MCP offices and 7 regeneration plants across the US and Canada. The Nashville Service Center features a qualified team of Mar Cor Purification Field and Service Technicians.

Mar Cor Purification Water Treatment Capabilities

- Reverse Osmosis (RO)
- Water Softeners
- Carbon Filters
- Media Filtration
- Electrodeionization (EDI)
- Service Deionization (SDI)
- Ultrafiltration
- Ultraviolet Purifiers
- Depth/Pleated Filtration
- Ozone Disinfection Systems
- Cleaners & Sterilants
- PLC/HMI Control Systems

Products & Services

High Purity Water Systems

Mar Cor Purification is an industry leader in high purity water systems for Medical, Pharmaceutical, Semiconductor, Commercial & Industrial, and Lab Water applications. MCP can provide a quality water purification solution for any situation or application.

- Single-source provider of installed water purification systems
- Design & Engineering Services
- Standard and custom modular systems, including skid mounted
- Integrated PLC based control systems
- Superior designs proven to minimize bacteria growth
- "Green" options for water recovery and energy efficiency

Typical Applications

- Blending
- Biological Engineering
- Central Laboratory Water
- Power Industry
- Humidification
- Rinsing of Electronic Components
- Glassware Rinsing
- Preparation of Process Chemicals

Standard Features

- Skid Mounted
- Integral Power Supply
- Operational Instruments
- Epoxy Coated Steel Frame
- Pressure Gauges
- Flow Meters
- Prewired/Preplumbed
- Factory Tested

Optional Items

- Hot Water Sanitizable
- Various Piping Materials
- Stainless Steel Frame
- Brine Feeder
- Ultraviolet Sterilizer
- Nist Traceable Instrumentation
- High Water Recovery Design
- System Validation

Service Deionization (SDI)

Mar Cor Purification offers portable exchange activated carbon and deionization services. All portable exchange medias are processed in our FDA registered and compliant facilities.

- No capital investment required.
- Monthly, Quarterly or Semi-Annual Services. Available.
- Premium grade carbon and ion exchange resin medias. (cation, anion or mixed bed).
- Flow rates from 0.25-100 gpm (Additional flow rates available with parallel units).
- FDA Registered, Compliant and Consistent.

Skid Mounted Purification Equipment

- Pre-Engineered Models
- Complete skid mounting options
- Compact Footprint
- Pre-Piped and Wired Controllers
- Reduce On Site Installation Times
- Performance Testing Options Available

Mar Cor Purification Support Services

Mar Cor Purification is one of the largest and most experienced water purification companies in North America. We have been servicing water treatment equipment for over 40 years and have an experienced, qualified team of technicians qualified to work on your water systems based out of our Atlanta office. Key services offered include:

Engineering and Design Services

Working with our clients, in a collaborative engineering and design effort, ensures the delivery of equipment properly designed to meet your needs. MCP provides fully integrated services so that the system you purchased meets your requirements.

After Care Services

Once installed, MCP preventative maintenance contracts and services safeguard the continued production of high purity water. MCP is available 24/7 to provide you emergency and scheduled support services to keep your system operating at peak efficiency including:

- Periodic service by qualified technicians to confirm consistent performance and protection for your capital investment
- Analytical testing by independent laboratories to stay compliant
- Periodic system cleaning and sanitization to maintain high quality standards

Equipment Installation

- System Start-Up
- In-Depth Operator Training
- Storage & Distribution Piping Systems

Maintenance & Repair

- Diagnostics and Repair Services
- System Performance Audits
- Preventative Maintenance

Engineering Services

- Validation Documentation
- Engineering Documentation
- Project Management
