

PRODUCT BULLETIN #3239

Date: January 5, 2023

From: Michael Verguldi, Sr. Product Manager

Subject: **Notification of End of Life for DW Series and Station Wall Boxes**

Effectivity: End of Sales: 31 January 2023
End of Shipment (projected): 31 April 2023
End of Support/Service: 31 January 2028

Evoqua Water Technologies proudly offers Mar Cor® Water Purification Systems and Services, including our DW Series and other Station Wall Boxes. Since the introduction of the DW Series Wall Box, we have continued to invest in product improvement and have recently launched a new product line, the Tx3® Therapy Supply Station. This new series of “wall boxes” improve provider access and increase the standard of care in patient treatment areas when accessing various fluids and discharge paths required for hemodialysis therapy applications.

Accordingly, Evoqua is providing notification of our intention to discontinue the DW Series and Station Wall Boxes along with other like-minded models that are not affiliated with the Tx3 Therapy Supply Station. The DW Series and Station Wall Boxes as well as other models will no longer be offered for sale as of January 31, 2023. Orders may be placed after this date, but only while supplies last. Please note that certain configurations are no longer available and have already been discontinued. Certain DW Series, Station Wall Boxes, and other models (i.e., plain with no fittings installed) are available for a limited time for purchase, but components must be purchased individually, and any required assembly would be by others.

Evoqua will continue to provide technical support and spare parts for the DW Series, the Station Wall Boxes, and other similar models through January 31, 2028. After the projected End of Shipment, Evoqua will not update, modify, or do any other type of improvements on these Wall Boxes unless dictated by immediate safety concerns. Evoqua reserves the right to discontinue product support at any time if manufacturing or product availability has been compromised.

Evoqua offers an alternative model with a variety of configurations by utilizing the Tx3 Therapy Supply Station for use within the hemodialysis marketplace. Please direct all questions to your local sales representative or to info@mcpur.com.
