

TRANSFER AND BOOSTER PUMP CROSS-REFERENCE

There has been a wholesale change to products using the existing Shurflo transfer and booster pump model. The Shurflo pump has been changed to the Aquatec model. There are several applications using the new Aquatec pump as a replacement either by itself or in kits.

NOTE: There is nothing wrong with the Shurflo pump that is in use. It will continue to operate as intended. If a replacement is necessary, the Aquatec pump is now offered as the equivalent pump replacement model for these applications.

Ordering Information

For ordering purposes, the following table identifies the replacement pump part numbers as required for different product applications:

| Transfer and Booster Pump Ordering Information | | | |
|--|-----------------------|--|---|
| APPLICATION | EXISTING SHURFLO PUMP | REPLACEMENT AQUATEC PUMP | NOTES |
| ERGO CARTS | W2T914731 | W2T914730 | Booster Pump |
| ROVER | W2T914731 | W3T578784 | For ROVER applications using an existing Shurflo pump. |
| | N/A | W2T914730 | For ROVER applications using an existing Aquatec pump. |
| | N/A | W3T577969 | To be used when a booster pump is necessary with NO existing model installed. |
| SDS | W3T578198 | W3T578198 | Same P/N, but with Aquatec pump. |
| SDSR/SDSL | W3T577793 | W3T578795 | For applications when the SDS model has an existing Shurflo pump. |
| | | W3T578794 | For applications when the SDS model has an existing Aquatec pump. |
| | | <i>SEE TECHNOTE 298, P/N W3T574619</i> | |
| REMOTE ACID CONTROLLER, SDS | W2T914746 | W2T921731 | <i>SEE P/N W3T579332</i> |
